- Persons selecting this option will be reviewed on a case-by-case basis.

** The SMAT Initial Training Program is a 9 Module Course developed in 2011 to provide an awareness level of information to potential team members. Two of the modules have hands on portions that are conducted several times a year, but the rest of the program is now available online through Central Piedmont Community College. The course is free to team members (or potential team members), and is self-paced.*
